# THE BEST ROUTE TO

### Troops Will Be Sent Hereafter From San Francisco.

#### The Matter Discussed at the Cabinet Meeting Today.

#### President McKinley Thinks Affairs in the Islands Are Progressing Satisfactorily.

Today's Cabinet meeting was unevent-As usual the colonies furnished the chief topics of discussion, but only details of minor interest were gone over, with the exception of the mustering out of the volunteer troops in the Philippines and the transportation to the islands of regulars to replace them.

The latter subject was discussed at some length, the President destring the advice of the members of the Cabinet as to the most desirable route. Now that warm weather is approaching it is believed that it will be more desirable to send the troops by way of San Francisco, instead of taking the eastern route, through the Suez Canal and

Secretary Hitchcock, who is familiar with the climate in that part of the world, called attention to the extreme heat through which the troopships would have to pass, if the eastern roate were taken. By taking that route the ships are compelled to cross the equator, and spend several weeks in a belt where the climate is inten-

sely hot.

By taking the western route the transperts would consume less time in the voyare and the trip would be much more comfortable for the soldlers. It was fin-ally decided that the western route would be taken, and steps will be taken imme-diately to provide more transports. There is a scarcity of ships now at San Frano, but more will be chartered.

Congress to take up the currency reform and banking question.

The Philippine Situation.

The situation in the Philippines was discussed in a general way and the President expressed his gratification at the way the campaign has been conducted and the results. According to the statements of a member of the Cabinet after the meeting the question of possible complications with foreign powers was not touched upon neither the President nor any of the members of the Cabinet believing that there is any danger of such a trouble

Affairs in Culs, particularly the construction of the relificad cast from Havana and postoffice matters were talked over. Postmaster General Smith informed the Cabinet that the office in Havana was up against a problem in the shape of Spanish pennies which Americans and natives, un-able to circulate them in any other way have unloaded on the postoffice there. Several thousand dollars' were of pennies

have been taken in at the postoffice and no use can be made of them. In reference to the muster out of the United States volunteer troops in the Philippines the President has on foot a preinto effect if it is in accordance with the rules of the War Department. That is, Every Indication That the House who wish to take up a residence in the Philippines or the West Indies may be mustered out there, without having to re- will pass the Army bill in practically the

The question was submitted to the Judge Advocate General of the War Department several days ago, and is still being considered by him. It is probable that some arment will be made whereby those sol-who wish to remain in the Philippines manding officers and not be required to return to the United States.

### Stock Room Rumor.

The rumor current on the Stock Exchange that Dewey had sunk the ship of the German Admiral in Manile Bay was communicated to the members of the Cabinet, but was not regarded seriously. Since rumors, none of which appear to have been founded on fact, and Administration officlais do not pay any attention to them. The President also signed the joint reso lution granting a life-saving medal to Mi-chael F. Bany, of New York city, for hero-ically rescuing a number of lives in the East River.

Other acts approved were: Providing for the construction of a telephone line from Table Bluff to Salmon Creek in Humboldt county, Cal.; granting the right and au-thority to the Pensacola and Northwestern thority to the Pensacola and Northwestern Railroad Company to build bridges over certain rivers in the State of Alabama; authorizing the Grand Rapids Water Power and Boom Company of Grand Rapids, Minn., to construct a dam and bridge across the Mississippi River; making an appropriation for the support of the Military Academy for the fiscal year ending June 30, 1900; authorizing the St. Louis, Siloam and Southern Railroad Company of Missouri and Arkansas to construct a bridge across White River in Arkansas. A joint resolution providing for the furjoint resolution providing for the fur-ther distribution of the compiled statutes of the District of Columbia was also up-proved.

Separate bills providing for the relief of the Fourth Arkansas Mounted Infantry, Henry C. Rawson, Thomas G. Tiemon, and to remove the charge of desertion against Alexander McKee and George Alcott were also signed by the President.

### AN INDIANIAN'S INVECTIVE.

Representative Johnson's Speech Printed in the "Record." The speech delivered last Friday in the House by Representative Johnson of Indiana appeared this morning in the "Congressional Record." It is about twice as long as that actually delivered, for the reason that Mr. Johnson was cut short by the expiration of his time. He, however, had leave to print and the remarks inserted include more savage attacks upon President McKinley and his policies than

The incident, it was feared, would precipitate the looked-for crisis.

In answer to a direct question as to

ment:

In answer to your questions about the interview, I can assure you that you could not be more astonished than myself by the article of "La Liberte." I received M. Salanson in Paris because of the recommendation of a friend, and because I thought it was a personal affair. M. Salanson found a third person in my room. There was a short general conversation, but I had no iden I was being interviewed.

I have certainly not said any word which could be interpreted in a sense unfriendly for the relations of Germany and the United States. I decline any responsibility in the article of "La Liberte."

James Chapman, colored, suffering from well-developed case of smallpox was removed from a lunchroom in the heart of the business section of the city yesterday morning, and, it is said, after being carted around the streets in an open buggy by Health Inspector Ray, was taken to the smallpox hospital. During the time that the man was with the inspector the latter-it is alleged, stopped at several places and at the First Precinct police station left the buggy and took his charge into the building, where he remained ten or fifteen minutes while telephoning the fact that the man had been located to the Health De-

partment. Chapman lived at No. 716 I Street southwest with Mary Robison. They occupied a room on the second floor and on Sunday. Ernest Crawford, another inmate of the house, was taken ill with the smallpox, He was removed to the hospital and when the officers went to the place to apply the disenfectants they found that the Robin-son woman was infected with the disease. She was at once removed to the hospital and a search was instituted for Chapman, who had mysteriously disappeared from the premises as soon as he heard that the
